WHITEHALL 9000.
EXTENSION 743.

27th December, 1945.

This chart has been constructed from a study of the orders issued by Doenitz between 21st August 1939 and 3rd September 1939 and subsequently captured. The chart shows the approximate disposition of submarines ordered for 3rd September 1939, but it cannot be guaranteed accurate in every detail as the files of captured orders are clearly not complete and also some of the submarines shown apparently received orders at sea on or about September third to move to new operational areas. The documents from which this chart was constructed are held by the British Admiralty in London.
